Surfaces 10+ is a durable, high performance flexible homogeneous flooring suitable for most types of heavy contract areas for public institutions and commercial buildings where ease of maintenance and long life under heavy traffic are required. It has a Polyurethane (PUR) surface treatment.

INSTALLATION

Installation should be carried out in accordance with local standards. Subfloor should be smooth, hard, clean and dry prior to laying. Where applicable the subfloor must incorporate an effective Damp Proof Membrane. The material must be allowed to acclimatize 24 hours before installation at a room temperature of between 18-24°C. All seams must be heat-welded using matching welding rod.

MAINTENANCE

An emulsion dressing is required. Maintenance should be carried out regularly to retain the appearance and durability of the floor. The floorcovering should be maintained with regular sweeping and damp mopping using a neutral cleaner, more intense cleaning should be carried out using mono disc floor machine using a red pad.

DESCRIPTION			
Total thickness	EN 428	mm	2.0
Weight	EN 430	g/m ²	3150
Width of sheet	EN 426	cm	200
Length of sheet	EN 426	lm	20
CLASSIFICATION			
European classification	EN 685 / EN 649	class	34-43
Fire rating	EN 13 501-1	class	Bf1-S1
Slip resistance dry	ASTM D2047-11		0.37
Slip resistance wet	ASTM D2047-11		0.39
Electrical resistance	EN 1081		10 ⁶ ≤ R ≤ 10 ⁸
CE	EN 14041		Slip resistance
PERFORMANCE			
Abrasion group	EN 649	group	P
Abrasion resistance	EN 660.2	mm	>2.0mm ³
Dimensional stability	EN 434	%	≤ 0.25
Residual indentation	EN ISO 24343-1	mm	<0.1 within 2.5 hours
Thermal resistance	EN 12267	m ² K/ W	≈ 0.01
Colour fastness	EN 20 105 -B02	degree	6
Chemical products resistance	EN 423		OK
Anti-bacterial and fungicidal treatment	-	-	OK
Surface treatment	-	-	PUR
